

Voice On The Go[®] Safe Driving Voice Application Now Available in French and Spanish

Drivers in France, Spain, Mexico and Latin America Can Now Text and Listen to Email by Voice, Hands-Free

Toronto, Ontario – February 16, 2010 – Voice on the Go, the world leading provider of hands-free email and texting by Voice, today announced that its award winning Email-by-Voice Application is now available in French and Spanish. Drivers in France, Spain, Mexico and Latin America can now listen to their email as well as compose email and text messages hands free, all by Voice – while keeping their hands on the wheel and their eyes on the road.

Due to the overwhelming success of Voice on the Go by English users on BlackBerry App World™, Apple App Store and Android Market, Voice on the Go has now released its driving application in French and Spanish. Voice on the Go can be downloaded now in French and Spanish on BlackBerry App World, Apple App Store and soon on the Android Market.

Voice on the Go is a safer alternative to typing or reading messages while driving as users can listen to, compose, reply, forward and delete emails and send text messages, all by Voice. Voice on the Go also enables cell phone users to access their contacts, place calls from their contact list, send Twitter tweets and update their Facebook profile – all hands free and by voice. Instead of looking at their phone and reading their email, users can drive more safely while listening to their email and keeping their eyes on the road.”

Voice on the Go offers the most comprehensive and fully featured Voice Application that enables cell phone users to:

- Listen to email
- Navigate and delete messages by voice
- Compose, forward and reply to email using Voice-To-Text[®]
- Send SMS messages using Voice-to-SMS[®]
- Call any of their contacts by name or number with their voice
- Review and create calendar appointments by Voice
- Update Facebook and Twitter by voice

“We’ve experienced explosive growth in our English subscriber base and it’s exciting to start our consumer launches now in France, Spain, Mexico and Latin America” said John McLeod, CEO, Voice on the Go. “Needless to say, everyone understands that texting while driving is a problem around the world.”
