

Voice on the Go Releases DriveCarefully on BlackBerry Smartphones Avoid Texting While Driving with New Hands-Free Text-To-Speech Application

Toronto, Canada – April 6, 2010 – Voice on the Go®, the world leading provider of hands-free email and texting by voice, today announced the release of DriveCarefully™ for BlackBerry® Smartphones.

DriveCarefully is the ONLY app available that:

- Automatically reads your Email, SMS, and PIN messages
- Automatically plays your messages through your BlackBerry speakerphone, any Bluetooth headset or in-car kit and
- Available in English, French and Spanish languages

DriveCarefully is the best solution for listening to your messages while driving more safely with your hands on the wheel and eyes on the road. Stay productive and up to date by listening to your messages as they are sent to you.

Available on BlackBerry App World, this **FREE** App works with all BlackBerry Smartphones. DriveCarefully runs directly on BlackBerry Smartphones using the data channel.

BlackBerry users simply turn DriveCarefully “On” and new messages are automatically read aloud. Voice on the Go’s produces high quality audio streamed over the data channel directly to the BlackBerry media player. You don’t have to touch your Smartphone.

DriveCarefully is simple to use, activated quickly and is perfect for both consumers and BlackBerry Enterprise customers.

“Texting and emailing while driving has become a pervasive safety issue and we are seeing significant media attention on shows such as Oprah and CNN” said John McLeod, CEO of Voice on the Go. “Instead looking at their BlackBerry, drivers can now listen to their messages and drive more safely by keeping their hands on the wheel and eyes on the road.”

DriveCarefully will soon be available on Android, Nokia, Windows Mobile and the iPhone.
